## Mind Control or Brainwashing Investigations

Mind Control and Brainwashing Investigations: Many different people and groups can employ mind control or brainwashing, from cults to kidnappers, family members, coworkers, including but not limited to unscrupulous government organizations. These cases are often some of the most colorful, bizarre, and terrifying investigations that our agencies have been called on to solve.

## DLG Investigators

<http://dlginvestigators.com/investigation-services/debugging-sweeps/>

732-455-9002

License # 8945

### **DLG Investigators**

57 South Main Street #172

Neptune, NJ 07753

Telephone: +1 732 455-9002

FAX: +1 732 412 3105

E-mail: [DLGInvestigators@gmail.com](mailto:DLGInvestigators@gmail.com)

Spoke to Dave Gamble on 5-8-2018 at 11:30 a.m. He said he is a licensed private investigator in the state of New Jersey and that he would not be able to help because he does not handle investigations outside of the state of New Jersey. When I asked him if I did live in the State of New Jersey and if I had asked for him to use a Spectrum Analyzer to analyze the microwave or directed energy frequencies directed at me, he asked for me to speak to his assistant Michael at (609) 577-7528

A spectrum analyzer analyzes virtually EVERY radio transmission in the area, including the many commercial radio and television stations, police radios, aircraft, taxis, cell phones, as well as eavesdropping devices. Also, spectrum analyzers cannot detect recorders, microphones, anything hardwired, fiber optics, passive resonators, and inactive remote-controlled dormant devices.

**The following is included in EVERY SWEEP:**

- Radio transmission sweep – Total RF (radio frequency) spectrum sweep – 200 Hz to 12 GHz
- Telephone sweep (we perform three electronic tests and visually inspect each phone)
- Carrier current sweep – 20 KHz to 400 KHz (the building wiring)
- Infrared transmission sweep
- Laser beam transmission sweep
- Microwave transmission sweep
- Cell phone bug sweep (a cell phone used as a bug)
- Microphone sweep
- Hidden video camera sweep (both wireless and hardwired)
- Audio recorder sweep
- Acoustic leakage inspection (where applicable)

**MID-WEST PROTECTIVE SERVICE, INC. ®**

<http://www.private-investigator.com/private-investigators-detectives/eavesdropping-countermeasures-debugging-tscm>

**St. Louis, Missouri region:**

(636) 391-2188

**Chicago, Illinois region:**

(312) 229-0074

- Radio Frequency Examination for hidden telephone, room, or body transmitters. The Radio Frequency Examination will also detect Video transmitters, FAX or TELEX transmitters, and burst/hopping transmitters.

- **Radio frequency spectrum analysis** which will allow for audio and visual inspection of suspicious signals of transmissions.
- VLF examination of AC wiring for Current Transmitters which utilize the AC wiring as a transmission path.
- Examination of the telephone line system for Hookswitch Bypass, Parallel Tap, Series Tap, and voltage/current status.
- Amplification examination for suspicious telephone or room wiring for the presence of buried microphones/transmitters or equipment modification.
- **Infrared examination to detect and locate surveillance devices that utilize Infrared Energy for transmission. The examination will also detect Narrow Beam Lasers.**
- **Examination for Microwave Surveillance and Acoustic Leakage.**
- **Examination of vehicles for transmitters and Pulsed Tracking Devices.**
- Physical inspection for tape recorders and transmitters, both active and dormant.

## DPL Surveillance Equipment

## Do you suspect you are the victim of electronic harassment?

You are not alone. There are many people throughout the world who feel that they are the targets of electronic harassment.

The Covert Harassment Conference of 2015 held in Belgium was a human rights conference to create awareness on the covert harassment of civilians with the use of non-lethal weaponry and organized stalking.

Much has been written about individuals who have claimed to be the 'target' of electronic harassment. Some of the experiences were described as being targeted by microwaves pointed at their homes or bodies with symptoms of a headaches and a burning feeling. Others have claimed they hear voices in their heads calling them by name, often mocking them or others

**AMERICAN EAGLE**  
INVESTIGATIONS

*am the Owner of American Eagle Investigations a Private Investigative Firm located in New York City. We have over 50 Years experience conducting investigations. Call us at 347-380-7250 to speak with an Investigator.*

**11 Broadway, #830, New York, NY 10004 | Call Us: 347-380-7250**

Spoke with Dan McBride the owner of the Private Investigative Firm on 5-8-2018 around 1:30 p.m.

I read the following paragraph from his website :

The most damaging form of electronic harassment is the use of a **High Energy Producing Device** in the form of a weapon. These sort of devices can direct energy through walls and are usually undetectable unless the proper equipment has been deployed to measure the high concentration of emitted energy. There are innumerable ways in which common devices such as a radar gun or even a microwave oven can be converted into a weapon that can cause harm from long distances without a victim even knowing that they are being attacked.

He said inspite of what is on his website that there is nothing he can do to help me!

## claims to track electronic harassment technology

MSN | Outlook, Office, Skype | cyberinvestigationsservic x | Electronic Harassment Bug | Electronic Harassment Dete + v

www.cyberinvestigationsservices.com/eavesdropping-tscm-services/electronic-evesdropping-bug-sweeps/

Cyber Investigation Services is an independent cyber investigation and security consulting firm, providing eavesdropping detection and counterespionage services to businesses, corporations, celebrities and at-risk individuals.

We solve these security problems:

- privacy invasion via illegal eavesdropping, voyeurism and tracking;
- business espionage;
- high tech stalking;
- divorce and custody disputes;
- business and partnership dissolution's
- information security and intellectual property loss loopholes;
- spying at off-site meetings, compliance with privacy laws; and more

**Our Electronic Eavesdropping & Bug Sweeps Can Detect:**

- Spycams, Covert CCTV, Micro Cams, Mini Cams, Wireless Spy Cameras
- Cell Phone Bugs, Telephone Bugs, Electrical Current Wiretaps
- VOIP, WI-FI, Computer Threats
- GPS Tracking
- Electronic Harassment Technology

Headquartered in the Tampa Bay metropolitan area, a CIS investigative team can assist you quickly, anywhere in the United States, and internationally.

<http://drakeinvestigations.com/>

**Counterintelligence Division**

Among the most complex and sensitive assignments that Drake Investigations undertakes, are those which involve protecting assets and personnel from exploitation. Espionage and illicit collection activities represent attempts by foreign governments, employees, and corporate competitors to acquire confidential, non-public proprietary information. The threat is so acute that the Director of the Central Intelligence Agency has warned corporate America to be alert to the threat and to take the necessary countermeasures to thwart the threat.

One of the most insidious threats to an unsuspecting corporate entity is the illegal interception and monitoring of audio and data communication. There has been increasing use of electronic eavesdropping devices. These devices can exploit the radio frequency generated by personal computers, cellular telephones, land line telephones, cordless telephones, and fax systems. The available technology for communication and data acquisition is immense. There is no such thing as safe communication without high speed encryption systems, but even with that technology there are vulnerabilities.

When performing a security survey, it is vital to be able to quickly pick up the spectrum analyzer and walk around an environment to compare RF signal strength in different locations. The diagram to the left illustrates traces being captured in three different locations relative to a transmitting signal.

Drake Investigations offers TSCM that utilizes DOD level countermeasures equipment. We are also able to identify clandestine surveillance devices transmitting from DC to 71 GHz. Thus, we can identify all friendly and not so friendly radio frequencies in VLF/HF/VHF/UHF and microwave range. Our TSCM technicians can identify the most sophisticated devices, such as, Frequency "Hoppers," Spread

Victory Investigations

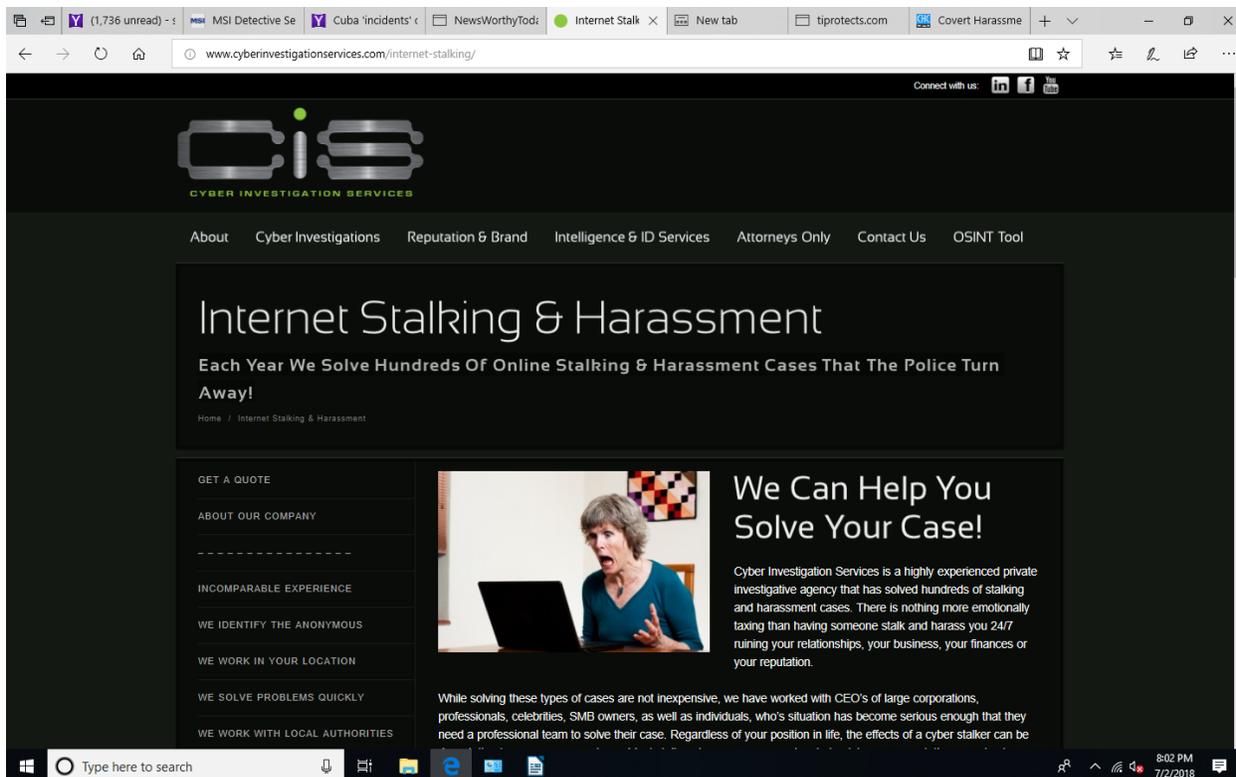

8 Dundas Cir., Suite H  
Greensboro, NC 27407

(336) 298-2034

[investigator@victorypi.com](mailto:investigator@victorypi.com)

The screenshot shows a web browser window displaying the Victory Investigations website. The browser's address bar shows the URL [victorypi.com/services/counter-surveillance/](http://victorypi.com/services/counter-surveillance/). The website has a dark header with the "VICTORY INVESTIGATIONS" logo on the left and navigation links for "HOME", "ABOUT US", "SERVICES", "BLOG", and "FREE QUOTE" on the right. A blue "CALL NOW! (336) 298-2034" button is also present in the header. A left sidebar lists various services such as "Adultery / Infidelity", "Cell Phone Forensics", "Computer Forensics", "Cheating Wife", "Cheating Husband", "Cheating Partner", "Cheating Lover", "Child Custody", "Electronic Countermeasures", "GPS Tracking", "Alimony Reduction / Cohabitation", "Monitoring Your Children", "Cyber Investigations", "Executive / VIP Protection", and "Service of Process". The main content area is titled "Electronic Countermeasures (TSCM)" and includes the sub-headers "Are you a victim of electronic eavesdropping or harassment?" and "You may never know...". The text explains that some will stop at nothing to gain an unfair advantage and that surveillance has become more pervasive as technology progresses. A small image of a circuit board is shown with the caption "This \$10 'Bug' could ruin your business and destroy your life!". The bottom of the page features a Windows taskbar with the search bar, taskbar icons, and system tray showing the time as 7:30 PM on 7/2/2018.

<http://www.sarasotadiscreet.com/About-Us.html>

**Call: 941-922-2255**

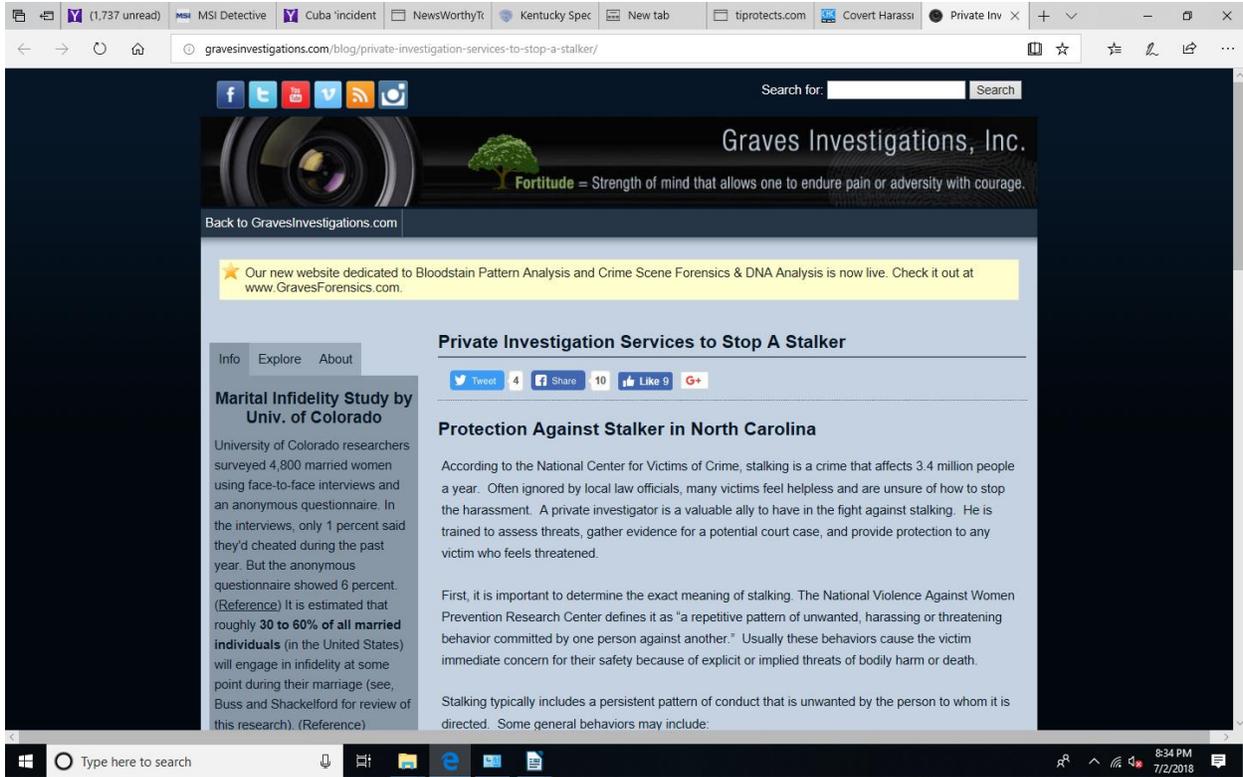

Mark Steel, Private Investigator

Mark has a total of 12 years experience as an investigator and is a veteran of many years of working multiple cases in the Detroit area. He has been the personal bodyguard for one of the richest men in Michigan and has cultivated state of the art **expertise in security and surveillance techniques.** But after working cases in Detroit and Florida for many years, Mark decided to make sunny Sarasota his permanent home base in 2009. His clients include law firms, housewives and many out of state residents that require a local representative. Have you ever watched AMC's Breaking Bad or Better Call Saul? Imagine a younger and much more powerful "Mike", but one who works within the law.

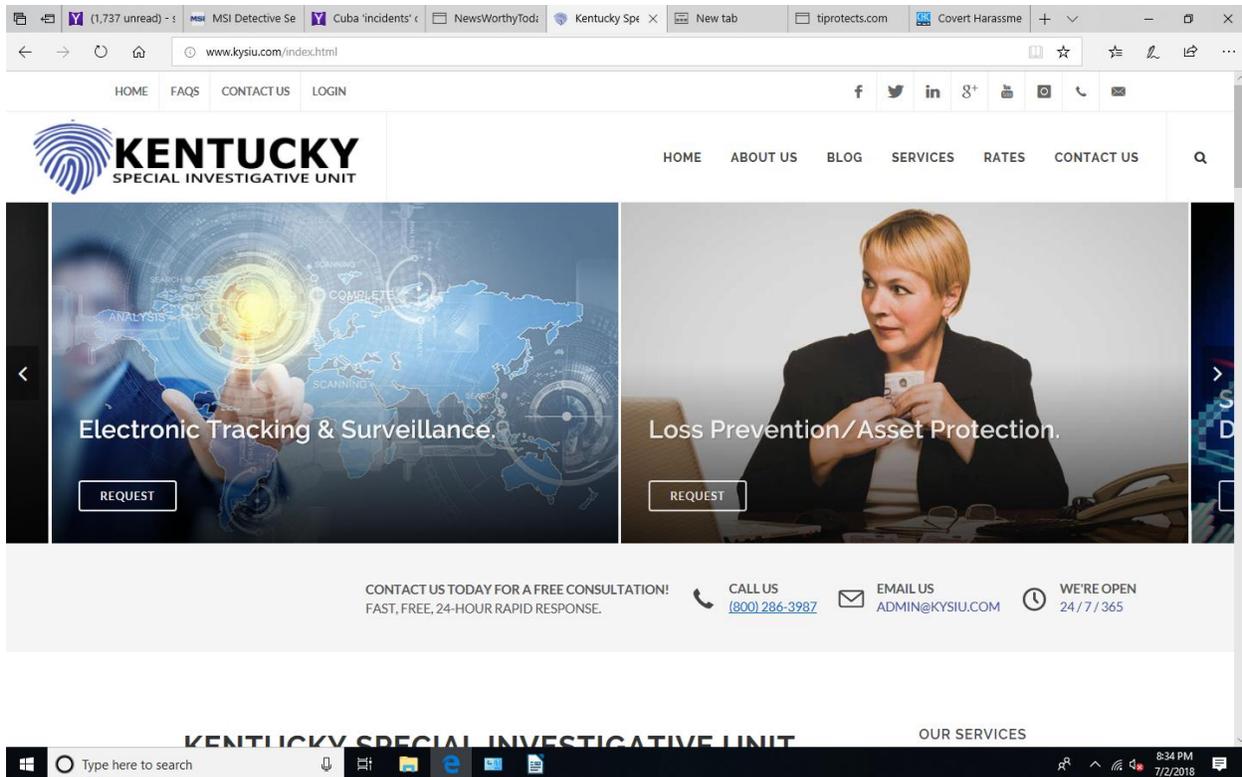

Stephen S., Private Investigator

Stephen is a U.S. Army Veteran of **Operation Desert Storm** (1988-1991) and retired after **22 years as Deputy Sheriff from Macomb County Sheriffs Office**. His Law Enforcement experience includes: Corrections Officer, Crime Scene Investigator, 6 years as Detective in Fugitive Apprehension, Surveillance and Narcotics. His experience in undercover work has brought a broad variety of cases to a successful conclusion.
